Vangard 256

Highly concentrated disinfection for healthcare and institutional facilities

About this product

Vangard 256 is a highly concentrated neutral disinfectant cleaner developed for healthcare, institutional, and commercial facilities that require dependable daily cleaning and disinfection. It delivers effective cleaning, disinfection, and deodorizing performance while helping facilities maintain consistent infection prevention practices.
Designed for high-traffic environments, Vangard 256 supports routine cleaning and broad-spectrum disinfection of hard, non-porous surfaces commonly exposed to dirt, grime, blood, urine, and other organic matter. Its highly concentrated formula provides economical dilution rates, making it ideal for large-scale cleaning programs in hospitals, long-term care facilities, laboratories, veterinary clinics, dental clinics, and food processing environments.

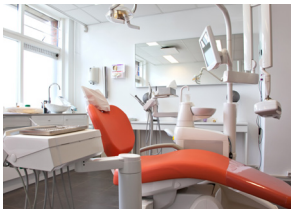

DIN: 02213095

- Highly concentrated formula helps reduce cost per use in large-scale cleaning programs
- Delivers effective cleaning, disinfection, and deodorizing performance for routine facility maintenance
- Removes common soils including dirt, grime, blood, urine, and organic matter
- Broad-spectrum efficacy against bacteria, viruses, and fungi on hard, non-porous surfaces
- Neutral pH formula supports routine daily use
- Helps control mould and mildew on treated surfaces
- Controls odours caused by microorganisms
- Preserves the appearance of floor finishes
- Suitable for healthcare, veterinary, laboratory, and food processing environments
- Economical dilution rates help maximize coverage while maintaining cleaning performance

Dilution rates:	
Normal Cleaning	1:256 - 1:500
