

The Dustbane Way

Cleaning a Hotel Room

DUSTBANE
Give Meaning To Your Cleaning 

Cleaning a hotel room starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation:

1

Multi-Purpose Cleaner: Oxy D.S.T.

Reduce the amount of products required to clean your hotel room and improve your guests' experience. The use of Oxy D.S.T. as a general purpose hard surface cleaner will minimize your chemical inventory while providing the cleaning results you strive for. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:20.
- Available in 750 ml (RTU) & 4 L.

2

Glass and Chrome Cleaner: Azure

Cleanliness plays an important role in customer experience since it impacts their willingness to return. Make a lasting impression by keeping your windows, mirrors, glass, chrome and stainless steel sparkling clean and streak free. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:16.
- Available in 750 ml (RTU) & 4 L.

3

Degreasing & Disinfecting Wipes: Triple Action Multi

Clean, degrease and disinfect on the go. Wipes offer many advantages over traditional cleaning methods; one being that wipes are wetter than cloths, allowing for a longer dwell time of active ingredients, offering superior cleaning performance.

- Clean hard surfaces that need disinfecting

4

Carpets and Stains: Eco-Expert

Deep cleaning carpets helps to prolong its life since vacuuming alone is not enough to remove dirt and allergens. Removing stains from the carpet will give a more positive impression to your guests and provide a more sanitary environment. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:125.
- Available in 4 L & 20 L.

5

DB3

Extremely compact and easy to use, it offers excellent ergonomics thanks to the convenient handle that includes an integrated cable reel and silent wheels. Made of up to 75% recycled plastic.

- cUL Certified
- Includes all necessary tools & accessories
