

The Dustbane Way

Cleaning a Pool Area

DUSTBANE
Give Meaning To Your Cleaning 

Cleaning a pool area starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation:

1

Pool Deck Cleaner: Emerald

Pool decks should be cleaned regularly to prevent the spread of disease as well as the slipperiness that results from biofilm growth. Dirt, grease and scum can be removed by scrubbing the decks with Emerald. Its non-abrasive formula is no risk for tile and grout. UL ECOLOGO® Certified.

- Dilute in cold water at a rate of 1:80.
- Available in 750 ml (RTU), 4 L & 20 L

2

Disinfectant Cleaner: Blu-Lite

All areas of the pool and poolside should be regularly disinfected. Blu-Lite acts as a complete solution for destroying germs while leaving behind a fresh scent that won't irritate guests. Safe for all hard surfaces including ceramic, stainless steel, grout, and porcelain. DIN: 02278871

- Dilute in cold water at a rate of 1:40.
- Available in 1 L & 5 L.

3

Floor Cleaning: Hurricane Mini

Our most compact auto-scrubber will wash your floors in difficult to reach areas while enhancing productivity in small spaces.

- Height-adjustable handle.
- 11" scrubbing path.
