

The Dustbane Way

Cleaning a Warehouse

DUSTBANE
Give Meaning To Your Cleaning 

Cleaning a warehouse starts with a simple program. Ask us about a custom program that will meet your individual needs. Here's our baseline recommendation:

Sweeping Compound

Dustbane Sweeping Compound is used to clean and reduce airborne dust during sweeping and to ease the removal of dust and dirt on sealed and unsealed wood, concrete and metal floors. 100% biodegradable.

1

Cleaner & Degreaser: Complex Orange

Because the machines used in warehouses often cause grease to build up on the floors and equipment, the choice of a good degreaser is very important. Complex Orange is a solvent free cleaner degreaser that quickly emulsifies and removes the toughest dirt and soils.

- Dilute in cold water at a rate of 1:30.
- Available in 4 L, 20 L & 210 L.

2

Floor Sealer: Foundation

Foundation stops concrete dusting, improves stain resistance, increases abrasion and crush resistance. Foundation achieves uncommon levels of durability and permanency for total sealer protection. APE and odour free. UL ECOLOGO® Certified.

- Two to three coats recommended.
- Available in 4 L & 20 L.

3

Disinfectant: UniTab

UniTab is proven effective against a number of different microorganisms that can result in mold spores in damp environments. This compact tablet is perfect in areas that require intense disinfection against bacterial growth. DIN: 02470381.

- Dilute 2 tablets per 1 L of water for disinfection.
- Dilute 1 tablet per 20 L of water for sanitizing.
