

ClearOut

Clear out smoke odours quickly & efficiently

About this product

ClearOut is an odour control product used primarily to eliminate smoke odours from cigars, cigarettes, cannabis and fire. Features a perfect blend of malodour counteractants and detergents that reduce the spread of odour-causing molecules into the air. Highly effective in removing odours on porous, soft surfaces such as fabric, without staining or marking the surfaces and dries quickly.

- Eliminates airborne odours in the air or on fabrics
- Fast-acting formula for all types of smokes
- Ideal for use in public areas
- Dry quickly on fabrics
- Water-based – won't stain surfaces
- Long-lasting odour control
- Interacts with odours at a molecule level
- Ready-to-use – no dilution required

Why is smoke odour so hard to eliminate?

Smoke odours can be really hard to remove and they tend to linger and be absorb in surfaces. To remove the smell permanently, one must remove the source of the problem. This means cleaning all surfaces. Scented candles and perfumed aerosols only mask the odour temporarily. Ventilation can help to remove some of the smell, but it actually only dilutes the odour and does not remove the smell permanently.
