

# Clearly Clean

## Bowl Cleaner

Effective foaming action with a gentle formula

### About this product

Bowl cleaner is a simple, ready-to-use product that serves as a safer alternative to traditional acid cleaners. This versatile cleaner effectively cleans surfaces in an environmentally responsible manner, without the use of harsh oxidizers. Its surfactant-based formula produces a clinging foam that remains on surfaces longer, allowing for optimal contact time and a deeper clean. It deodorizes while cleaning and removes rust stains from toilets, urinals, sinks, and bathtubs. Safe for use on faucets, chrome, stainless steel, showers, ceramic surfaces, and more. Its fresh, pleasant mint scent is sure to be well received.

- Foaming to cling on surfaces, allowing for longer contact time
- Does not contain bleach/harsh acids/phosphates and is non-abrasive
- Breaks-down proteins and stains that are common to restroom environments
- Reduced environmental impact
- Safe for most hard surfaces
- Cleans while eliminating offensive restroom odours
- Improves restroom surface cleaning process
- Pleasant clean fresh scent
- Ready-to-use – no mixing required

### Why foaming products are more effective?

Foaming cleaners create a thick foam that adheres easily to vertical surfaces such as the sides of toilet bowls and urinals. This extended contact time allows scale and soap scum to remain in contact with the cleaner's active ingredients longer, making buildup easier to remove and reducing the amount of labor required.
