

Disinfex

Hard Surface Disinfectant

About this product

Disinfex is a ready-to-use, hospital-grade disinfectant cleaner designed for fast, reliable daily disinfection of hard, non-porous surfaces. Its neutral pH, low odour formulation, and broad-spectrum efficacy make it ideal for use across institutional, commercial, educational, food service, and healthcare environments.

Engineered for simplicity and compliance, Disinfex delivers one-step cleaning, disinfecting, sanitizing, and deodorizing without dilution, reducing training requirements and eliminating mixing errors. Its fast contact times and proven efficacy, even in the presence of organic soil, support consistent infection control in high-touch environments.

Key Features & Benefits

- Ready-to-use formula: no dilution, no mixing errors
- 5-minute disinfectant for broad-spectrum microbial control
- 5-second sanitizing for rapid turnaround of high-touch surfaces
- Proven virucidal efficacy against Norovirus, Influenza, HIV-1, Hepatitis B & C, and more
- Tested in the presence of organic soil (5%), ensuring real-world performance
- One-step cleaning, disinfecting, sanitizing, and deodorizing
- No active residue left behind, supporting surface safety
- Safe for food contact surfaces (rinse required)
- Neutral pH, low odour formulation for user comfort and frequent use
- Compatible with most washable surfaces including acrylic, fiberglass, and vinyl

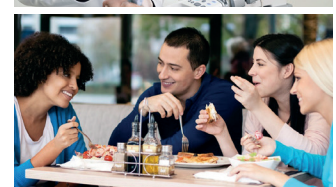

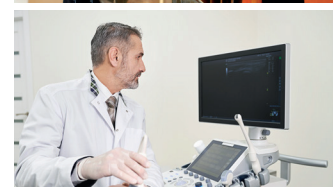

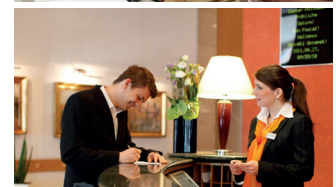

Fast, Reliable Disinfection

Effective against viruses and bacteria commonly found in high-touch environments, including: Norovirus, SARS-CoV-2 (COVID-19), Influenza A, MRSA & VRE, HIV-1, Hepatitis B & C

Designed for Everyday Use

Ideal for:

- Schools & daycares
- Food service & processing
- Offices & commercial facilities
- Transportation & public spaces
- Healthcare & long-term care
