

Hydrofect EHP

Hard Surface Disinfectant

About this product

Hydrofect EHP is a concentrated hydrogen peroxide-based disinfectant cleaner designed for use in healthcare, long-term care, veterinary, institutional, and commercial environments. When diluted at 1:32, it delivers broad-spectrum disinfection, virucidal, bactericidal, fungicidal, and sanitizing performance on hard, non-porous surfaces and spot sanitization on soft surfaces.

Formulated for high-paced environments, Hydrofect EHP cleans, disinfects, sanitizes, and deodorizes in one step while maintaining fast, realistic contact times for key healthcare-associated pathogens. When used as directed, the diluted solution meets Category IV toxicity requirements, making it suitable for daily use in occupied spaces.

- 2 minute spray hospital disinfectant with broad-spectrum efficacy
- 1-minute virucidal activity against key pathogens, including Norovirus and SARS-CoV-2
- 5-minute efficacy against Canine Parvovirus, supporting animal care and healthcare-related use cases
- Fast contact times for key healthcare and long-term care pathogens
- One product, multiple functions: cleans, disinfects, sanitizes, and deodorizes
- Hydrogen peroxide-based chemistry (7.6% active ingredient in concentrate)
- Category IV toxicity at use dilution, supporting safer daily cleaning programs
- Fragrance-free formulation with no sticky residue
- Compatible with common healthcare surfaces, including stainless steel, vinyl, sealed stone, and Corian®
- Flexible application methods: spray, cloth, mop & bucket, sponge, or immersion

Healthcare-Focused Efficacy!

Effective against Norovirus, SARS-CoV-2, Influenza A, MRSA, Hepatitis B & C, and other healthcare-associated pathogens at realistic contact times.

**CONCENTRATED
PERFORMANCE!**

**Kills cold, flu,
and SARS-Cov-2
viruses in 1
minute!**
