

Ourfresh 2.0

Automatic Air Freshener System

About this product

Elevate your space with Fresh Products' Ourfresh 2.0 Air Freshener Dispenser. The high powered fan disperses fragrance more efficiently and consistently than metered aerosol. Liquid free, dry fragrance inserts release the right amount of light, appealing fragrance, reducing fragrance overload, and eliminating floor residue. Ideal for medium-sized areas up to 250 sq. feet and can be mounted on the wall with screws, taped or even sit anywhere above human height. Perfect for spaces without available outlets.

Unlike aerosol alternatives that often contribute to excessive waste with empty canisters, Ourfresh 2.0 offers a greener solution that is both effective and responsible.

- **Dry Fragrance Technology:** Liquid-free, leaves no sticky residue
- **Eco Friendly Refills:** 100% recyclable and are VOC compliant
- **Superior 30-Day Performance:** Smart chip technology runs the fan intermittently, turning longer as the 30 days progress (the fan does NOT run continuously)
- **Easy to Refill:** Hang approximately 6 ft. high in the center of the space; no need for a ladder
- **Never Run Out of Power:** Each refill includes a C alkaline battery
