

Quat Plus

Liquid Disinfectant

About this product

Quat Plus is a concentrated neutral disinfectant cleaner and germicidal detergent designed for facilities that need dependable daily cleaning, deodorizing, and broad-spectrum disinfection without adding strong odours, extra products, or complicated procedures. Its low-odour, surface-safe formula makes it ideal for offices, schools, gyms, washrooms, public buildings, and other high-traffic commercial and institutional spaces.

Formulated to simplify daily maintenance programs, Quat Plus cleans, disinfects, and deodorizes in one step while offering flexible dilution options for multiple cleaning applications. Quat Plus may be used as part of cleaning and decontamination protocols designed to help reduce the spread of aquatic invasive species through shared watercraft and equipment. Ideal for municipalities, lake associations, canoe and rowing clubs, fishing lodges, campgrounds, and other recreational water programs.

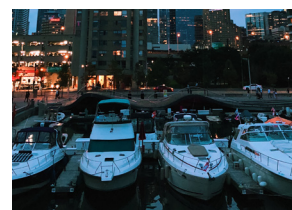

DIN: 02298694

- Concentrated formula helps reduce cost-in-use across routine cleaning and disinfection programs
- Neutral disinfectant cleaner and germicidal detergent cleans, disinfects, and deodorizes in one step
- Low-odour formula supports daily cleaning in occupied spaces such as offices, schools, gyms, and public buildings
- Supports watercraft and equipment cleaning protocols designed to help reduce the spread of aquatic invasive species between waterways
- ECOLOGO Certified (UL 2794) helps facilities support sustainable cleaning programs without adding a separate product
- Flexible dilution ratios allow one product to support auto-scrubbing, regular cleaning, all-purpose cleaning, disinfection, and heavy-duty cleaning
- Broad-spectrum disinfectant performance supports routine hygiene programs across high-traffic facilities
- Helps reduce cross-contamination on treated surfaces as part of a daily cleaning protocol
- Food contact surface compatible when followed by a potable water rinse
- Works with common janitorial methods, including mop buckets, cloths, trigger sprayers, and auto-scrubbers
- Surface-safe formula supports use on most washable hard surfaces

Dilution rates:

Auto-scrubber	1:256
Regular Cleaning	1:256
All Purpose	1:120
ECOLOGO (UL 2794)	1:80
Disinfection	1:80
Heavy Cleaning	1:40

Daily Maintenance Advantage

Quat Plus helps facilities clean, disinfect, and deodorize across multiple areas with one concentrated product, reducing product complexity, supporting sustainability goals, and helping teams maintain clean, fresh, high-traffic spaces every day.

Broad-spectrum efficacy supports routine disinfection programs, including claims relevant to respiratory season, high-touch cleaning, and food-service areas.
