

Triple Action

Cleaner, Degreaser and Disinfectant

About this product

Triple Action is a powerful cleaner, degreaser, and disinfectant designed for industrial, kitchen grease, and heavy-duty commercial environments. It removes grease, oils, and stubborn soils while delivering dependable broad-spectrum disinfection, making it ideal for production areas, equipment exteriors, maintenance zones, and other demanding cleaning applications.

Formulated to streamline facility maintenance programs, Triple Action delivers one-step cleaning, degreasing, and disinfecting performance, helping reduce product inventory while supporting efficient and consistent cleaning results. Its water-based, non-butyl formula provides strong cleaning performance without the harshness associated with traditional solvent-based degreasers.

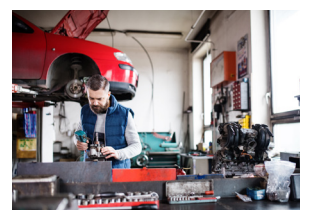

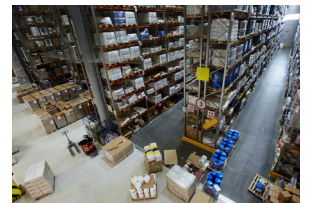

DIN: 02505320

- Cleans, degreases, and disinfects in one step
- Cuts through grease, oils, and heavy soils in demanding environments
- Designed for industrial and food-processing facilities
- Powerful grease cutting performance without harsh solvent odours
- Maintains cleaning strength on heavily soiled surfaces
- Broad-spectrum disinfectant performance
- Flexible dilution ratios for light-duty to heavy-duty cleaning applications
- Suitable for most washable surfaces
- Food contact surface compatible (rinse required)
- Helps reduce inventory by consolidating multiple cleaning functions into one product

Dilution rates:

Light Duty Cleaning	1:80 - 1:160
Normal Cleaning	1:40 - 1:80
Heavy Duty Cleaning	1:10 - 1:40
Disinfection	1:20

Dependable Disinfection

Effective against bacteria commonly associated with industrial and commercial sanitation programs, including:

Salmonella, Staphylococcus aureus, Escherichia coli, Pseudomonas aeruginosa

Codes: 51347 (5 L)
51349 (20 L)

51350 (210 L)
