

AccuMax

Proportioning System

Applications:

Proper cleaning starts with proper dilution. This system dispenses a single product at 3.5 GPM flow rate. Dilution is controlled by drawing chemical through metering tips of varying sizes and injecting this metered amount into the water flow.

Benefits:

- 1 button operation for dispensing of a single diluted chemical
- 3.5 GPM flow rate - excellent for mop buckets and pails
- AccuPro Technology provides consistent dispenses the precise amount of chemicals regardless of water pressure
- Uses less space than dispenser + separate chemicals
- High-quality dispenser stands up to daily wear and tear
- Easy, tool-free maintenance
- Chemically resistant select valves
