

Disinfex

Cleaner, Disinfectant, Sanitizer, and Deodorizer

Applications:

Disinfex is a ready-to-use, hospital-grade disinfectant cleaner for hard, non-porous surfaces in healthcare, veterinary, institutional, food service, transportation, and public environments. It cleans, disinfects, sanitizes, and deodorizes in one step, helping support fast daily disinfection of high-touch surfaces.

For best results, remove visible soil before disinfection. Apply to counters, floors, walls, washrooms, cages, kennels, food contact surfaces, and other washable hard surfaces. For disinfection, wet the surface and allow it to remain wet for 5 minutes. Rinse food contact surfaces and child-contact surfaces with potable water after use.

Ideal for use:

- **Healthcare & Long-Term Care Facilities:** High-touch surfaces, washrooms, common areas, counters, floors, and walls.
- **Veterinary & Animal Care Facilities:** Exam rooms, cages, kennels, grooming areas, and washable hard surfaces.
- **Schools & Childcare Facilities:** Desks, classrooms, washrooms, shared areas, and high-contact surfaces.
- **Food Service & Public Spaces:** Food contact surfaces with potable water rinse, transportation areas, and high-traffic facilities.

Features and benefits:

- Ready-to-use formula
- 5-second sanitizing, 5-minute disinfection
- One-step cleaning, disinfecting, sanitizing, and deodorizing for routine use on hard, non-porous surfaces when visible soil has been removed
- Effective in the presence of organic soil
- Broad-spectrum efficacy for institutional and veterinary environments
- Safe for food contact surfaces when followed by potable water rinse
