

Vanguard

General Purpose Disinfectant

Applications:

Vanguard is a concentrated general purpose disinfectant designed for routine cleaning, odour control, disinfection, and mould and mildew control in commercial, institutional, recreational, public, and healthcare environments. Its flexible dilution rates make it a practical daily maintenance option for facilities that need one dependable product across multiple cleaning applications. Dilute with potable water according to the dilution rates below. Apply using a mop, sponge, cloth, or trigger sprayer. Heavily soiled surfaces must be cleaned prior to disinfection. Thoroughly wet the surface and allow it to remain wet for 10 minutes, then remove excess liquid. To remove mould and mildew, apply the solution and allow it to dry on the treated surface. Food contact surfaces must be rinsed with potable water after treatment.

Ideal for use:

- **Commercial & Institutional Facilities:** Washrooms, floors, walls, common areas, and high-touch surfaces.
- **Education & Public Facilities:** Classrooms, public buildings, recreation spaces, and shared surfaces.
- **Healthcare & Care Environments:** Routine environmental surface disinfection where daily hygiene is required.
- **Recreational Facilities:** Fitness areas, change rooms, washrooms, and moisture-prone areas.
