

DB 499

Professional Power Nozzle

Simplified Cleaning

This power nozzle is the perfect solution for deep cleaning of carpets and bare floors without having to change the power nozzle – the cleaning is simplified. Its brushes pick up tough-to-reach debris along baseboards, and a rubberized bumper protects your walls and furniture. The L-shaped design provides easy maneuvering around furniture and incredible edge cleaning.

Highly Efficient

The motorized revolving brush features soft horsehair bristles and a rubber tab which makes it highly efficient on carpet and hard surfaces. The bristles lift embedded dirt from carpets but won't scratch bare floor surfaces. The DB 499 is continually monitored by a sensitive electronic control, guarding against overload while ensuring optimal performance.

Independent Brush Motor

The DB 499 Power Nozzle uses an independent brush motor, helping drive the unit to enhance cleaning. The non-slip cogged belt keeps the brush roll revolving at its normal speed year after year and protects the unit from electric overload.

Specifications	DB 499
Model Number	28392
Vacuum Type	Dry
Nozzle Width	14" (36 cm)
Overall Height	38" (97 cm)
Brush Speed	5300 rpm
Brush Bristle	Horsehair
Amps (Rated)	1.40 A
Brush Roll Replacement Sensor	Yes
Heavy Duty Motor	Yes
On/Off Micro Switch	On the neck
Manual Height Adjustment	No
Power Cord	10' (3 m)
Approval(s)	cUL (when used with the Targa Series)
