

Cleaning

# FOR A BETTER FUTURE.

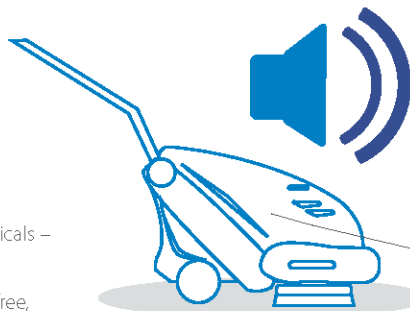

HOW IS DUSTBANE

## sustainable?

### CONCENTRATED CHEMICALS

- Reduces water waste in our manufacturing process
- Gets the most out of your chemicals – less packaging
- Know you're buying safe, butyl-free, biodegradable, non-toxic products

### NOISE LEVEL

Our auto-scrubbers and sweepers make very little noise, so they can run at any time of day, even during work hours. Because they are manufactured this way, they use less energy when running.

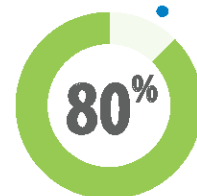

Our long-lasting equipment filters ensure less waste is being expelled into the air

Dustbane Sweeping Compound containers are made of

**100% RECYCLED PLASTIC**

from the blue box program in Ontario

### FLOOR PADS

The fibres in our floor pads are made from 100% recycled PET plastic, with a minimum of 80% post-consumer waste.
